Dear Yngve,

It is with great concern that we read about the situation of our fellow pilots in Scandinavia. The situation you describe is pure social dumping. We cannot tolerate that as a pilot community. In that sense, I am very pleased to learn that NF is taking action. We will support all your actions and have already completed your request for mutual assistance.

For now, we wish you and NF strength and wisdom, and hope to meet you in Brussels during Conference at the end of November for an update on this affair.

If there's anything we can do for our friends in Norway in the meantime, please let me know.

In brotherhood, also on behalf of Willem,

Kind regards,

Captain Wouter Houben
Boardmember International Affairs
