Dear Associations of Star Alliance Pilots v/Captain Craig Malcom

Reference is made to your letter October 17, concerning Scandinavian Airline System and their former employees.

The new Norwegian government consisting of Arbeiderpartiet (The Labour Party) and Senterpartiet (The Centre Party), believe that it is important to improve workers' rights in a fast changing labour market. We think it is very important to strengthen the Norwegian model of high cooperation between the social partners, including legally binding collective agreements and a high level of workers protection.

Our government has high ambitions, and wish to implement legislation that increases the protection of workers in Norway.

We believe that internationalization and the increase in large, multinational corporations heighten the need for regional and international cooperation. I have already sent a letter to my Nordic ministerial colleagues, inviting them to a dialogue on these issues at the coming meeting in the Nordic Council of Ministers on November 23.

Yours sincerely
